

FusionDebug 2.0.1 Issue List			
Key	Issue Type	Component/s	Summary
FD-373	Improvement	All	Performance optimizations
FD-299	Bug	Breakpoints	Breakpoints do not fire on simple <cfreturn somevar> statements. Heavily affects frameworks...
FD-349	Bug	Breakpoints	Breakpoints don't fire after connecting session.
FD-356	Bug	Breakpoints	Breakpoints do not fire if the Save Class files option is off and the cfclasses folder is empty
FD-389	Bug	Breakpoints	NPE from Stack Assembler when BP is placed on a line prior to function declaration.
FD-308	Bug	Breakpoints	If multiple breakpoints have been added on the same line then the FusionDebug breakpoint stops working.
FD-331	New Feature	Breakpoints	Breakpoints should fire when set on blank lines or lines with no CFML
FD-375	Bug	Breakpoints	Error in Eclipse when setting breakpoints.
FD-345	Bug	Breakpoints	Renaming a file does not unset JDI breakpoints (was: Breakpoint fires but doesn't appear in FusionDebug)
FD-382	Bug	Breakpoints	You cannot set a breakpoint on the first line of a file if the first line isn't code.
FD-408	Bug	Breakpoints	Breakpoints are not removed from JDI when they are removed in the editor by deleting the lines the breakpoint is on
FD-344	Bug	Breakpoints	Confusing breakpoint behaviour when code moves breakpoint.
FD-353	Bug	Breakpoints	Exceptions in workspace log when pasting new content into a file with a breakpoint in it.
FD-298	Bug	Breakpoints	Breakpoint are not firing in a Mach-II application in the Listeners
FD-372	Bug	CF Abstraction Stepping	Step into on a CFSWTICH statement steps to the wrong line at the end of the <CFDEFAULTCASE>
FD-386	Bug	Config Tool	FD Server Configuration Wizard version should be 2.0.1
FD-421	Bug	Eclipse	Error in Eclipse when disconnecting a debugging session
FD-291	Improvement	Eclipse	Add "Patent Pending" to the splash image and Preference Windows
FD-302	Improvement	Install	Bring FD installers up to CFEclipse version (1.3.1.1)
FD-306	Bug	Install	Launching FD failed because javaw.exe could not be found
FD-313	Improvement	Install	FD2.0.1 PluginInstaller should be able to update FD2.0.0 Standalone automatically
FD-320	Bug	Src Code Lookup	Case where you can't modify the default project mapping.
FD-316	Bug	Stack Frames	Wrong file is opened on breakpoint
FD-329	Bug	Stepping	An error in a CF page causes the debugger to hang while doing step intos
FD-325	Bug	Stepping	When stepping into a MGU function I get a line:-1 shown in the stack
FD-410	Bug	Stepping	Non-Linear (Block Skip) Stepping in CF8 (Unmasked JDI bug)
FD-330	Bug	Stepping	Stepping through a high number of factors causes the page to hang
FD-361	Bug	Stepping	Step Over on a file with a large number of cfif statements (factors) skip most of the code
FD-362	Bug	Stepping	Stepping into a large number of factors can skip code
FD-431	Bug	Stepping	Stepped into the cfDump tag while stepping through a page.
FD-433	Bug	Stepping	Step Return does not return to the caller when a page contains _factors but to the next factor block
